

Air Emission Standards and Emission Reduction Technologies, South Africa, 2004

Name	Country	Presentation
Peter Edwards	United Kingdom	1. Emissions Monitoring Technologies 2. 2. Monitoring and Control Technologies for Trace Elements
Harry Schreurs	Netherlands	Reduction of CO ₂ emissions in The Netherlands - Ambitions, policies and opportunities for sequestration
Hans-Joachim Meier	Germany	Technical and economical optimisation of a 600 MW coal fired power plant
Kourosh Zangeneh	Canada	Mercury Emissions from Coal Power Plants: Measurements and Regulations
Pat Hughes	Canada	Ash Deposition Measurements Comparison to Predictive Methods
Tony Surridge	South Africa	Top Down or Basa Njengo Magogo Combustion
Michael Durham	United States	Full-Scale Evaluation of Mercury Control for Coal-Fired Boilers by Injecting Activated Carbon Upstream of ESPs and Fabric Filters
